

# Adobe Photoshop for Digital Photographers

## The Beginners' Intro Course covering Photoshop CS3, CS4, & CS5

- Introduction to Photoshop - What's it for? What can it do? What can't it do?
- Where to start - The toughest question for beginners in Photoshop is "Where do I begin?" We'll get you pointed in the right direction quickly. Sort, select, delete! (45 Minute Segment)
- Camera RAW - What is camera RAW? Why should my starting point always be in Camera RAW. Camera RAW in Photoshop
- Non-Destructive Editing: What are Photoshop Layers really all about? (1 hour segment)
- Fine Tuning With Layers: Using Adjustment Layers to add punch to your images. Curves, Levels, Vibrance, Hue & Saturation, Exposure, and more. (1 hour)

Classes exclusively available through the Art Store and RL Charpentier. Max 8 students per session:  
June 13, July 11th, August 15th, Sept 5th. 12:30-4:30 p.m.
