

Adobe Photoshop Lightroom for Digital Photographers - Intro to Lightroom 2 & 3

- Introduction to Lightroom - What's it for? What can it do? What can't it do? (15 minutes)

- Catalog Setup - Before you get in depth with Lightroom you'd better set it up right! Catalog creation, image storage, backup parameters, and more. Plus, it's a database! (1 hour)

- Sorting it all out - Lightroom is a powerful digital workflow management platform. Setup properly, it will enable you to find that one photo in a library of thousands. (1 hour)

- The Develop Model - Can you say Camera RAW? Photoshop's RAW editor at your finger tips. (1 hour)

- Who needs Photoshop? Lightroom offers powerful editing capabilities. Maybe it's all you'll need. (1 hour)

Classes exclusively available through the Art Store and RL Charpentier. Max 8 students per session:
June 20th, July 18th, August 29th, Sept 26th.

\$79.00 per participant. Bring your laptop and follow along.
